2017-2018 NATIONAL TEAM COACHES

- **National Team Coach:** The primary coach for the athlete who is named to the National Team list at the time of the qualifying swim by the athlete. - Athlete's Primary Coach, as defined below, will be named to the National Team Coaches list.
 - *Primary Coach:* the coach of the athlete at the time the athlete qualifies for the National Team. The Head Coach of a program may include one additional assistant coach who coached the athlete to the qualifying performance to receive recognition for the athlete's performance.
- If an athlete has been training with a University for less than 12 months, and represents their developmental club at the time of the performance, the coach and the club will get recognition on the National Team roster and the coach will be named to the National Team Coaches List.
- If an athlete moves clubs, but trained with their previous coach for at least 90 days during the 12 month period prior to the qualifying performance, the previous coach will also receive National Team Coaches list/National Team Roster affiliation with the athlete.
- If an athlete has been training with a new coach for more than 12 months the previous coach will lose National Team Coaches list/National Team Roster affiliation with the athlete at this time.
- If an athlete has been training with a University for more than 12 months, and represents their developmental club, the developmental club will get recognition on the National Team roster but the developmental club coach will not be named to the National Team Coaches List.
- If a current year National Team Athlete changes coaches during his/her year on the National Team, the new coach will not be added to the National Team Coaches list and the original coach will remain on the list. No additions will be made to the National Team roster.
