20 Athletic Student Aid *Total Dollar Amount* \$24,930,964 Input the total dollar amount of athletic student-aid for the reporting year including:

- Summer school.
- Tuition discounts and waivers (unless it is a discount or waiver available to the general student body).
- Aid given to student-athletes who are inactive (medical reasons) or no longer eligible (exhausted eligibility).
- Other expenses related to attendance.

Note: Division I Grants-in-aid equivalencies are calculated by using the revenue distribution equivalencies by sport and in aggregate. (Athletic grant amount divided by the full grant amount). Other expenses related to attendance (also known as cost of attendance) should not be included in the grants-in-aid revenue distribution equivalencies. Only tuition, fees, living expenses and course related books are countable for grants-in-aid revenue distribution per Bylaw 20.02.11.

Athletics aid awarded to non-athletes (student-managers, graduate assistants, trainers) should be reported as Expenses Not Related to Specific Teams. It is permissible to report only dollars in the Expenses Not Related to Specific Teams row as long as you have reported non- zero entries for Equivalencies, Number of Students, and Dollars (all 3 required for at least one sport).

Note: Pell grants are provided by the government, not the institution or athletics department, and therefore should be excluded from reporting in this category.

Note: This information can be managed within the NCAA's Compliance Assistance (CA) software. The equivalencies entered into compliance assistance will automatically populate to the athletic student aid section within the NCAA Financial Reporting System when the CA import feature is selected.

Athletics Participation

Table 1,253 Table 1 - - - Athletics Participation. A participant at an NCAA member institution is defined as a student who, at any point during the academic year: (a) is listed as a team member; (b) practices with the varsity team and receives coaching from one or more varsity coaches; or (c) receives athletically-related student aid.

Any student who satisfies one or more of the criteria above is a participant, including a student on a team the institution designates or defines as junior varsity, freshman, or novice, or a student who does not play in a scheduled contest, whether for medical reasons or to preserve eligibility (i.e., a redshirt).

Student-athletes who participate in more than one sport should be counted in each sport. The Coed Teams column is marked based on the content of the sports sponsored table (Mixed Sports) in the School Info page. **Male practice players are NOT to be included as participants in this table.**

Comments

Comments: In “Athletic Student Aid” (Category 20) of Revenues/Expenses, Column B (for Exhausted Eligibility or Medical Equivalency) also includes any exempted aid after the departure of a Head Coach per NCAA Bylaw 15.5.1.8 (Aid After Departure of Head Coach). These non-counters are also reflected in the “Total Equivalencies Awarded (A+B)” section as well as “Number of Students Receiving Athletic Aid” section.

Miscellaneous Information

Note: These values are calculated from data entered earlier in the system.

Athletically
Related
Student Aid

Input the total dollar amount of athletic student-aid for the reporting year including:

- Summer school.
- Tuition discounts and waivers (unless it is a discount or waiver available to the general student body).
- Aid given to student-athletes who are inactive (medical reasons) or no longer eligible (exhausted eligibility).
- Other expenses related to attendance.

Note: Division I Grants-in-aid equivalencies are calculated by using the revenue distribution equivalencies by sport and in aggregate. (Athletic grant amount divided by the full grant amount). Other expenses related to attendance (also known as cost of attendance) should not be included in the grants-in-aid revenue distribution equivalencies. Only tuition, fees, living expenses and course related books are countable for grants-in-aid revenue distribution per Bylaw 20.02.11.

Athletics aid awarded to non-athletes (student-managers, graduate assistants, trainers) should be reported as Expenses Not Related to Specific Teams. It is permissible to report only dollars in the Expenses Not Related to Specific Teams row as long as you have reported non- zero entries for Equivalencies, Number of Students, and Dollars (all 3 required for at least one sport).

Note: Pell grants are provided by the government, not the institution or athletics department, and therefore should be excluded from reporting in this category.

Note: This information can be managed within the NCAA's Compliance Assistance (CA) software. The equivalencies entered into compliance assistance will automatically populate to the athletic student aid section within the NCAA Financial Reporting System when the CA import feature is selected.
